

Constructs and stable cell lines

 Naeha Subramanian

Updated date: Dec 28, 2020

 An abbreviated version of this protocol was published in Science Signaling in Dec 2020

A small sustained increase in NOD1 abundance promotes ligand-independent inflammatory and oncogene transcriptional responses

DOI: [10.1126/scisignal.aba3244](https://doi.org/10.1126/scisignal.aba3244)
